

Lead Retrieval

Please see descriptions below for all lead retrieval devices offered at this meeting. See you in San Juan, Puerto Rico!

QMS Services, Inc. is proud to be the official lead retrieval contractor for the 2013 ATA Annual Meeting. See you in San Juan, Puerto Rico!

As an exhibitor this year you have the opportunity to utilize technology that captures leads easily and automatically, allowing more valuable time to spend with your potential customers.

If you have not yet ordered your lead retrieval system, we want to remind you that there will be a limited supply on site. To guarantee your rental, save time and sign up now!

Infocard Plus[®] Wireless

*\$290/unit on or before 9/16/13
\$320/unit after 9/16/13 and on site*

The Infocard Plus[®] Wireless lead retrieval system will provide exhibitors with the following:

- Convenience and portability of a small, hand-held unit
- Picture and voice capabilities
- Up to 10 programmable, customizable qualifiers
- Speed of laser scanning and an easy-to-use touch screen
- Instant access to leads via SD memory card
- Ability to generate an entry without a badge present
- Battery powered – does not require electricity

Infocard Plus[®]

*\$290/unit on or before 9/16/13
\$320/unit after 9/16/13 and on site*

The Infocard Plus[®] lead retrieval system will provide exhibitors with the following:

- Compact – uses less than a square foot of space
- Up to 10 programmable customizable qualifiers
- Speed of laser scanning – it takes seconds to store and print a lead
- Instant access to leads by way of USB memory stick
- Ability to store up to 3,000 leads with continuous updates to USB drive
- Built-in automatic printer capabilities for data redundancy

Orders are accepted via mail, fax, phone or online!
